

FININGULF 46

MAJESTIC, YET NIMBLE

Our flagship, the Finngulf 46, is a swift, elegant, blue water yacht, with a high fun-factor. At ease on blue water passages, the Finngulf 46 will also let you entertain in regal style in any port of call. Uncompromising, hand crafted, traditional joiner work is combined with aggressive, sleek, modern lines to create a classic Solid Performance Cruiser.

LET YOUR DREAMS SOAR

Our approach to customer driven semi-custom boat building lets you take control and participate in creating your ultimate sailing yacht.

The FG46 is available in infused epoxy or vinylester, with interior options ranging from teak and mahogany to cherry and white oak.

LISTENING TO THE CUSTOMER

Half of our sales are to repeat customers. We like to think that this is due to the fact that in addition to being good boatbuilders, we are also great listeners, factoring into each yacht the specific wishes and wants of every individual client, helping them achieve their dreams.
